CIRCULAR

Sub: Request for wearing full sleeves shirts,full pants & salwar suit.

Cases of Dengue fever are reporting from all over Delhi. The problem has been intensified because of incessant rain for the last 1 ½ months. It has led to reporting of aedes mosquito breeding at many places.

The aedes mosquito bites mostly in the exposed part i.e. upper limbs and lower limbs. The maximum biting of aedes mosquito is in the morning and in the evening which very much coincides with the morning shift and evening shift of the schools.

It has been observed that the students coming to school are mostly in half pant/half shirt or in skirts making them vulnerable to aedes mosquito bite. Hence, Heads of schools are therefore, advised to ensure that all students of NDMC schools to wear full pants,full sleeves shirts and the female students to wear full sleeves kameez and salwar(salwar suit). By this way the aedes mosquito, if present, in the premises may not be able to bite the student.

This issues with the prior approval of the competent authority..
