DETAILED NOTICE INVITING PRE-QUALIFICATION (PQ)
(INTERNATIONAL COMPETITIVE BIDDING)

**NAME OF WORK: DISTRICT COOLING SYSTEM AT CONNAUGHT PLACE ON
B.O.T. (BUILT OPERATE TRANSFER) BASIS**

PROJECT: REDEVELOPMENT OF CONNAUGHT PLACE, NEW DELHI
PQ DOCUMENT NO.: 1038/T-11/08-09/RKK/03

1.0 INTRODUCTION

- 1.1 **New Delhi Municipal Council (NDMC)** proposes to take up the works for Redevelopment of Connaught Place, New Delhi and has appointed **EIL** for implementation of this work on Turnkey Consultancy Service Basis.
- 1.2 EIL, on behalf of NDMC, invites sealed pre-qualification Bids/application for District Cooling System at Connaught Place on B.O.T (Built Operate Transfer) basis from experienced and competent agencies with sound technical and financial capabilities fulfilling the Qualification Criteria stated under para **4.0** below.

2.0 BRIEF SCOPE OF WORK

Due to adverse climate condition and high temperature in Delhi (Connaught Place) almost all officers and shops use Window Ac's, or Duct able units, or Air- cooled chiller. Not only these consume high energy, but also pollute the surrounding areas of the buildings with hot air. DG sets have also been installed in the Court Yards and Roof tops to ensure continuous supply of Energy to Air Conditioning System. Appearance of these in facade and rooftop is in conflict with the architectural expressions of the buildings.

In view of scarcity of electricity and other environmental factors, it is proposed to provide a **centralised district cooling system** (supply of metered chilled and hot water to consumer) in Connaught Place, wherein a consumer shall only have to install indoor units i.e. FCUs and AHUs and the outdoor units shall be discarded. The central chilling plant is proposed to be located on one side of Minto Road, near the Minto Bridge. The bulk of energy required for the Air Conditioning System shall be consumed at the Plant itself, this shall reduce the pressure on demand of electricity at the consumer end. It is proposed to take up the works for District Cooling System on BOT (Built Operate & Transfer) basis. Chilled / hot water shall be made available on 24x7 basis throughout the year by the concessionaire. Suitable arrangements shall be made in case of breakdown of system.

The indicative scope of work shall include:

- i) Design, Financing, Built, Operate & maintain the District Cooling System of 18,000 TR capacity or more.
- ii) Collect Revenue for the system (metered chilled & hot water) from the stake holders / consumers.

2.1 Time and Proposed Cost

Concessionaire period is proposed to be for minimum of 25 years. The estimated cost of the proposed system is 5575 lacs.

2.2 Components of subsidy:

There is no provision of subsidy to the above mentioned project. However land/space for installation of the District Cooling System (DCS) shall be provided by

NDMC. The Civil & all other associated works for Construction of the air conditioning plant room shall be taken up by the bidders. Provisions for laying of chilled water pipes through service duct/ corridor shall also be made by owner. The piping work shall be done by the bidder. Fixed maintenance charges (amount to be decided on a later date during bidding stage) shall be paid by concessionaire to NDMC for use of land and to upkeep / maintenance of the Service Corridor.

3.0 SALIENT FEATURES OF PQ DOCUMENT

- a) PQ Document on Sale : **From 25.05.2009 To 25.06.2009**

5.4.1 EIL reserve its right to call for original of the supporting document for verification, if so deemed fit and also to cross check for any details as furnished by the bidder from their previous clients/consultants etc. Bidder shall have no objection whatsoever in this regard.

5.4.2 EIL reserves the right to make use of available in-house data also for PQ of bidders who have submitted PQ bids for Pre- qualification.

5.5 CONTACTING THE OWNER/CONSULTANT

5.5.1 No bidder shall contact the Owner/EIL on any matter relating to its PQ bids from the time of submission of PQ Application, unless requested so in writing.

5.5.2 Bidders to note that non-submission of relevant supporting documents may lead to rejection of their PQ Application. It is to be ensured that all relevant supporting documents shall be submitted along with their PQ Application in the first instance itself. PQ process may be completed based on the details so furnished without seeking any subsequent additional information.

5.6 DISCUSSION WITH BIDDERS

5.6.1 Discussions with Bidder during PQ evaluation shall be arranged, if it is so needed. Bidder shall depute his authorised representative(s) for attending the discussions. The representative(s) attending the discussions shall sign the minutes of meeting on behalf of his organisation, if it is asked. The authorised representatives must be competent and empowered to settle all technical and commercial issues, wherever applicable.

6.0 SELECTION PROCESS

The process of selection of the agency would be in two stages. In the first stage PQ bids submitted by Bidders shall be evaluated. Those bidders who meet the pre qualification criteria shall be short listed for next stage of the bidding where in detailed request for proposal (RFP) document would be issued inviting technical & financial proposals. The work shall be thereafter awarded on the basis of evaluation of the proposals submitted by pre-qualified Bidders.
