

Revenue & Power Department

Sub: Power Purchase Adjustment Charges – Regarding.

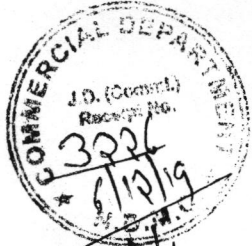

On the basis of PPAC formula approved by DERC, PPAC for the 3rd Quarter of the Calendar year 2019 i.e. from July'19 to September'19 has been worked out and comes out to 1.46%.

As per Business Plan Regulations-2017, "In case PPAC does not exceed 5% for any quarter, the Distribution Licensee may levy PPAC at 90% of computed PPAC with prior intimation to the Commission without going through the regulatory proceedings. However, this computation of PPAC is to be first uploaded on Discom's website before it is levied in consumer's electricity bills".

DERC has accordingly been intimated separately. Commercial Department may kindly be asked to take following actions in this regard:-

- a) Ensure that PPAC computation to be levied in Consumer's Electricity Bills is first uploaded on NDMC website (copy of computation attached).
- b) Levy 90% of the 1.46% PPAC worked out for 3rd Quarter of the Calendar year 2019 in Consumer's Electricity Bills as per provisions in Business Plan Regulation-2017 of DERC.
