

NEW DELHI MUNICIPAL COUNCIL

Secretary, NDMC inaugurates one day Workshop on prevention of Dengue and Vector Borne Diseases

New Delhi – August 20, 2016

Secretary, New Delhi Municipal Council (NDMC) Smt.Chanchal Yadav **today** inaugurated a workshop on prevention of Dengue, Chikunguniya and Malaria at Convention Centre at NDMC Headquarter, Palika Kendra in New Delhi.

The one day workshop on Prevention of Dengue and Vector Borne Diseases has been organized by Health Department of New Delhi Municipal Council. Besides, the experts like Dr.Nagpal from National Institute of Malaria Research (NIMR), Dr.N.R.Tulli from MCD, Prof. Jugal Kishore, Community Medicine, Mulana Azad Medical College and Dr.R.S.Sharma, Former Additional Director from National Centre for Dengue Chikunguniya (NCDC), about 500 children of NDMC and Navyug Schools and teachers as well participated in the workshop

Speaking after inaugurating the workshop Secretary, NDMC said that the dengue, no doubt is one of the most dangerous and dreadest diseases caused by mosquitoes and aedes mosquito is responsible for this disease. So one should destroy the mosquitoes breeding completely because it is first and foremost way to prevent dengue and other vector borne diseases, she added.

The Secretary said that as the mosquitoes breed in clean stagnant water in humid weather, so it is imperative for all of us to maintain cleanliness in and around our houses and ensure that there is no stagnant water in and around our houses.

She called upon the students and teachers to come forward to create awareness about the prevention of dengue and water borne diseases. She hoped that the valuable suggestions will come out in the deliberations during the technical sessions, which will be useful for taking necessary measures to eradicate the menace of dengue, which has spread during the last two decades.

She further said that all medical and testing facilities are available in the hospitals and dispensaries run by NDMC in New Delhi area and the people can avail these facilities without any charges.

“Dengue is a major public health problem in the country. Abiotic and Biotic play an important role in transmission of dengue. The NDMC should take necessary steps to sensitize health education programme for interruption of transmission of dengue in a sustained manner among the students and public at large so as to prevent dengue / chikunguniya in NDMC area”, Dr.R.S.Sharma former Additional Director of NCDC observed while interacting with the school children and teachers during the technical session.

Besides, Medical Officer of Health, Shri P.K.Sharma, Shri R.N.Singh, CMO (Malaria) and Director(Education), Shri R.P.Gupta, other Senior Doctors and medical staff of NDMC also participated in the workshop.
